

# Our Do's and Don'ts before you take flight

- Please no food or drink.
- No strollers.
- All children must be accompanied by an adult.
- Please don't touch the butterflies.
- If a butterfly lands on you, lightly blow on it to get it to fly away. If that doesn't work, very lightly brush them off.
- Remember to be quiet and still. You'll have a better chance of a butterfly landing on you.
- Watch where you step. The butterflies may be on the walking path.
- Please check to make sure that you don't have any butterflies on you before you leave.
