For the General Public

Purchasing tickets for a popular event like Enchanted Airlie online can be tricky due to high demand, but here are some tips to help you secure your ticket:

- Have your preferred date and time PLUS a back-up when you are purchasing your carload ticket
- Don't wait until the morning tickets go on sale to coordinate a date and time with family and friends
- Have your credit card out and ready, and get to the checkout page as quickly as possible once you have your carload in your shopping cart
- Use multiple devices/browsers. Try accessing the sale on different devices or browsers simultaneously (e.g., phone, laptop, tablet). This increases your chances of securing a spot in the virtual queue
- Use a stable internet connection: Make sure you're on a reliable and fast internet connection. A slow connection can cause delays and make you miss out
- Don't refresh too often: Refreshing the page can sometimes take you out of the queue. Only refresh if the page says it's necessary.
- **If you are not computer/smart phone savvy, come to Airlie and get in line before 9 a.m.**
